SMARTHOME
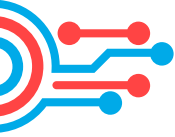

IoT and Automation with Smart Solutions

Empowering homes, offices, industries, and cities with advanced IoT-driven solutions, we deliver intelligent automation designed to enhance convenience, security, and efficiency. Our smart systems create fully connected environments that simplify daily life, optimize business operations, and improve urban living. By seamlessly integrating technology, we help people and organizations make smarter decisions, boost productivity, and enjoy safer, more efficient, and truly connected spaces.

About Us
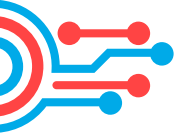

Transforming the Future with Smart Innovations

We are dedicated to transforming everyday spaces through innovative IoT-based Smart Home Automation solutions. We create seamless, intelligent environments that enhance the way you live, work, and interact with the world around you. From smart homes that offer security and comfort to smart industries and cities that optimize efficiency, we are committed to bringing the future of automation to your doorstep.

By integrating cutting-edge technology with thoughtful design, we focus on delivering solutions that are reliable, sustainable, and tailored to the needs of modern living. jiSECURE is committed to making smart living accessible, efficient, and secure for everyone, enabling individuals, businesses, and communities to thrive in a connected, intelligent world while improving quality of life and productivity at every level.

Shaping Homes, Industries, Cities, and Offices through IoT

Our Team

We have a team of highly skilled engineers dedicated to designing and developing innovative IoT solutions that simplify the management of homes, businesses, and entire cities. With extensive experience in hardware design, software development, and IoT integration, each team member contributes unique skills, creative ideas, and technical expertise, driving innovation and delivering exceptional results for every project.

Connecting World with IoT

Our Vision

To create a world where every home, office, industrial facility, and city is powered by intelligent, IoT-driven solutions that enhance quality of life. We strive to be at the forefront of innovation, developing smart technologies that improve efficiency, security, and sustainability.

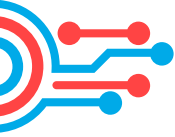

Our Mission

To make the world smarter, safer, and more efficient through state-of-the-art IoT-based automation solutions. We aim to provide our customers with highly secure, user-friendly, and sustainable smart technologies that improve the way they live and work.

Our IoT-Based Smart Solutions

We bring the future of connectivity to life with our IoT-based Smart Solutions. Our innovative systems provide seamless integration between devices, making everyday spaces—whether homes, offices, or entire cities—smarter, more efficient, and easier to manage.

Smart Home Solutions

IoT powers control: lighting, security, climate, appliances, from anywhere.

Smart City Solutions

IoT systems create sustainable, connected cities: improving traffic, energy, waste, and safety.

Smart Office Solutions

IoT boosts office productivity and cuts costs through enhanced efficiency, security, and flexibility.

Smart Industry Solutions

IoT enables smarter, data-driven industrial operations with automation/ analytics.

Product Catalog

Smart Home

Smart Home Controller | WiFi and BLE Wireless Inching Relay Monetary
Model : SH100C-W2R

Key Features

- Multi-device ON/OFF Control
- Smartphone App Control
- Real-time Monitoring
- App Notifications

Main Gate Smart Door Lock | WiFi & Bluetooth Controller
Model : SHL100CW2R1S

Key Features

- Mobile App Remote Control
- Tamper Notifications
- Auto Unlock
- Keyless Entry

Smart Switch | WiFi and BLE Wireless Inching Relay Monetary
Model : SH100C-W2R

Key Features

- Remote control via jiSecure Smart Home app
- Scheduling and timer options
- Usage tracking
- Real-time device (ON/OFF) information

Smart Industry

Experience the future with automation and IoT-based smart solutions, delivering
Model : SI100W2R1S

Key Features

- Monitors employee presence at the machine
- Check past activity logs.
- Notifications for prolonged inactivity

Smart City

Smart Parking Controller
Model : SC100W2R1S

Key Features

- Automated Vehicle Check-In & Check-Out
- Automated Boom Barrier Control
- Contactless and Secure Payments
- Vehicle Information Management

Smart Office

Smart XS Control System
Model : XS100-W2R2RF2S1B

Key Features

- Punch In/Punch Out
- On-screen Identity Confirmation
- Real-time Attendance Tracking
- Employee and User Management

At MACHMA 2025, we showcased our latest advancements in IoT-driven smart solutions, demonstrating how they can revolutionize industries, homes, offices, and entire cities. The event provided a valuable opportunity to engage with industry leaders, exchange insights on emerging digital threats, and explore cutting-edge IoT solutions that empower organizations to stay secure, efficient, innovative, and ahead in an ever-evolving and increasingly connected digital landscape.
